Action	Key Equivalent
(File panels) Change active panel	→
(File panels) Make left panel smaller	^← or ^⌘←
(File panels) Make right panel smaller	^→ or ^⌘→

## Frequently Asked Questions

- Can I see folders, which are started with dot (for ex., *.folder*)
- Yes! Just toggle this option with Menu->View->Sorting->View Hidden Files or by hitting ⌘⇧⌘I
- It would be really handy to have editable “Favorites” list
- Files use Finder’s sidebar Favorites to build GoTo list (shown by F1/F2 or by “Go to” button). Meanwhile Finder’s Favorites list can be easily altered with regular drag&drop.
