(File panels) Change active panel	→|
(File panels) Make left panel smaller	^← or ^⌥←
(File panels) Make right panel smaller	^→ or ^⌥→

Frequently Asked Questions

- **Can I see folders, which are started with dot (for ex., *.folder*)**
- Yes! Just toggle this option with Menu->View->View Hidden Files or by hitting ⇧⌥⌘I

- **It would be really handy to have editable "Favorites" list**
- Files use Finder's sidebar Favorites to build GoTo list (shown by F1/F2 or by "Go to" button). Meanwhile Finder's Favorites list can be easily altered with regular drag&drop.

- **Can I manually erase all Files' settings?**
- Yes, to do that you should remove the following items:
    ~/Library/Preferences/info.filesmanager.Files.plist
    ~/Library/Saved Application State/info.filesmanager.Files.savedState
    ~/Library/Caches/info.filesmanager.Files
    ~/Library/Application Support/Files
